

Dear Mrs. Kim,

That was a lovely surprise, the other day: We are delighted with your gifts, so very delicate, and with your kindness of wanting us to receive them!
Thank you very much!

We think of your presence here many times, - even now that the scaffolding of the house is gone..., and hope that your health is good after the surgery, and that music is sending to you her blessings.

Although I shall be playing in New York next month I have no plans for coming to California.
But who knows the future?

With renewed thanks and all best regards,
yours
